

HILARYS TEMBO

Computer Science Student • Software Developer

Lilongwe, Malawi | hilatembo@gmail.com | GitHub: github.com/Kakashi-Hicre

PROFESSIONAL PROFILE

Computer Science student and software developer focused on building practical software solutions across full-stack web development, backend engineering, mobile development and artificial intelligence. Experienced with modern JavaScript development and database-backed applications, with a strong interest in understanding software systems from their foundations and continuously strengthening software engineering skills.

TECHNICAL SKILLS

Languages: JavaScript, Python, Java, C, C++, SQL, HTML5, CSS3, TypeScript

Frontend: React, Next.js, Tailwind CSS

Backend: Node.js, Express.js, NestJS, Django

Databases: PostgreSQL, MySQL, MongoDB, SQLite

Mobile: Android development with Java, React Native

Tools & Development: Git, GitHub, VS Code, PyCharm, Code::Blocks, Android Studio

Concepts: REST APIs, authentication/authorization, CRUD systems, database integration, full-stack application architecture

PROJECTS

Smart Repair Shops

Technologies: Next.js, JavaScript, Node.js, Express.js, MongoDB, Tailwind CSS

Repair-management platform for customers, devices, repair jobs, appointments and service tracking. Includes dashboards, authentication, REST APIs and repair workflows.

Scholar Management System

Technologies: Next.js, NestJS, PostgreSQL, Prisma

Web platform for managing scholarship applications and administrative workflows, including authentication, applicant management and database-backed application processing.

Android Bar Inventory System

Technologies: Java, Android Studio, Room Database

Android inventory application for managing stock and inventory-related operations.

Hymn Book Android Application

Technologies: Java, Android Studio

Android application for browsing and reading hymns digitally.

PROFESSIONAL EXPERIENCE

Software Development Intern — Dream Code, Malawi

- Worked on full-stack software development with emphasis on backend engineering.
- Developed web applications and REST APIs using Node.js, Express.js and Next.js.

- Worked with MongoDB and application authentication/authorization.
- Collaborated within a development team to design and implement practical software features.

EDUCATION

Bachelor of Science in Computer Science — DMI St John the Baptist University

2025 – Present | Lilongwe, Malawi

AREAS OF INTEREST

Software Engineering • Full-Stack Development • Backend Systems • Artificial Intelligence • Mobile Development • Systems Programming • Game Development • Computer Science Foundations
